

Galli Ensuite

What does it include?

Portable Dry Toilet

The Galli Pooper, our portable dry toilet, is perfect for freedom camping. The waste is gelled with toilet crystals, biodegradable and sealed so can be disposed through the regular trash system. The toilet is very lightweight, so easy to move in and out of the vehicle – in fact if you are in a town or a remote lunch spot, it can even be used in the vehicle.

An added bonus of using a portable dry toilet, there is no need for additional water, or looking for a dump station.

Privacy Tent

The privacy tent can be erected in seconds, and stores easily in your vehicle. It's a good size so plenty of room for your elbows when showering.

Portable Power Shower

The portable 'power' shower plugs into the 12V of your vehicle, which ensures enough power to even wash your hair. And it's easy to use.

Why hire it?

Apart from the comfort factor, it's important to be self contained when staying in freedom camps that may have no or limited facilities.

Many people wish to hire a 4WD camper to really get off the beaten track and experience Australia, but as there is no onboard toilet, may limit themselves to staying in commercial campgrounds. By hiring a Galli Ensuite you'll have more flexibility to stay where you like, while still enjoying the comforts of your own facilities.

Hiring a regular or hitop van is a popular option as cheaper and easier to drive than the large motorhomes with onboard facilities. Hiring a Galli Ensuite means the best of both worlds –save money and enjoy the comforts.

What does it cost?

You can hire the Galli Ensuite from us, which will be waiting for you when you pick up your campervan rental.

The cost for the Galli Ensuite package is AUD\$10* per day, with a minimum of AUD\$200 per hire.

** enough Galli Pooper Toilet Crystals and bags for two people for the duration of hire is included in the price. Please note the Galli Ensuite is available from Brisbane – there may be an additional freight charge when collecting or returning to a different location. If interested, please enquire for more details.*

If you would like to purchase the entire Galli Ensuite, please contact us for details.

When do we use it?

The portable dry toilet can be used when and where you like. It's light weight, at less than 2kg, sturdy and the height of a regular toilet.

Some people choose to use it their van in built up areas, remote lunch stops or even during the night for convenience. Others use it in the easy to erect privacy tent outside of their vehicle.

How does the shower work?

The power shower is perfect after a long day of driving or exploring, before relaxing in a freedom camp. The shower plugs into the 12V cigarette lighter in your vehicle, which gives pressure to your shower. It simply takes warm or cold water from a bucket which is provided.
