## **Suggested Packing List**

## What to pack?

We recommending using a lightweight sports bag or duffle type bag for packing as

it can emptied and tucked away when travelling in the two berth range of campers.

This is not so important if you are travelling in the Four - Six Berth Motorhomes if you are not using the top bed as there will be plenty of storage – plus a storage locker at rear of vehicle. Bags can also be left at most depots if returning to same as pick up point
